

OKUMA FLOPPY DRIVE REPLACEMENT REPLACE YOUR OKUMA FLOPPY DRIVE CORE

BENEFITS:

- Okuma Floppy Drive replacement
- Emulates Floppy procedures
- Replace Floppy with USB Storage
- Easy to use and install
- Receive a credit for recycling old Okuma Floppy Drive Core

The Floppy Drive Emulator works on any Okuma controller with a disk drive. With our proven solution, the existing drive is removed - our Okuma Floppy Emulator replaces it easily and within minutes.

Eliminate searching for floppy disks or grappling with errors from your existing disk drive. Add USB to the machine without upgrading the controller and retrofitting the machine. The controller operates and reads floppy disks as normal, but with easily-accessible USB technology.

The unit supports MS-DOS formatted files and OSP form files. Simplify data backup of your valuable NC programs with user-friendly software, quick installation and a 1 year warranty. Return your existing Okuma disk drive/core and receive a credit!

STEP 1:
Remove old floppy
disk drive core from
your OKUMA

STEP 2:
Slide in your new
Floppy Drive
Emulator Core

OLD

STEP 3:
Send the old floppy drive
core to SFA within 15 days &
receive a \$695 credit

OTHER SERVICES FOR OKUMA MACHINE USERS:

- Copy IGF Files off Floppy Disk to a USB drive for a service fee
- Network your machines wirelessly with the Wireless Connect series
- Send & receive large part programs with our USB Connect series
- Still using paper tape? We can replace it with our Tape Reader Connect
